

Sandile Allen Msezane

Computer Science & IT Graduate

078-885-9689 | sandilemsezane01@gmail.com | LinkedIn | GitHub

Summary

A recent Computer Science and IT graduate with hands-on experience in software development, data visualization, and analytics. Proficient in C#, Java, and Python, with exposure to SQL and Power BI for creating actionable insights. Completed projects that simulate real-world SDLC and integrated data-driven features. Strong communicator with a keen interest in applying technology in finance and tax environments. Eager to contribute and grow in a dynamic, team-oriented role focused on data and digital transformation.

Experience

Academic Tutor (Volunteered)

Westville Campus, Durban, KwaZulu-Natal

University of KwaZulu-Natal

Feb.2024 – Nov.2024

- Tutored 30+ students in Java and Python fundamentals, including debugging practices.
- Facilitated weekly sessions focused on problem-solving and structured programming, aligning with SDLC concepts.
- Delivered sessions using real-world examples and enhanced understanding of analytical thinking.
- Encouraged logical reasoning and effective code presentation.

Education

University of KwaZulu-Natal

Westville Campus, Durban, KwaZulu-Natal

Bachelor of Science in Computer Science and Information Technology

Feb. 2021 – Dec.2024

- Relevant Coursework:** Software Development, Data Science, Systems and Architecture, AI and Machine Learning
- Final Year Project:** Built scalable Point of Sale Systems, Quiz applications, and real-time web application

Nkodibe Secondary School

Nkombose, Mtubatuba, KwaZulu-Natal

Matric/ Grade 12

Jan. 2016 – Dec.2020

- Relevant Subjects:** Mathematics, Physical Sciences and English FAL.

Projects

Computer Science Interview Prep Quiz | *C++, STL, Visual Studio*

Feb 2024 – June 2024

- Designed a quiz tool with 50+ questions to test and validate student learning.
- Utilized STL for efficient data management and incorporated basic test scenarios.
- Gained experience in logic design and performance testing.

Checkmate Point of Sale System

Feb.2023 – Nov.2023

Frontend (Full-Stack) Application | *C#, ASP.NET, Windows Forms, SQL Server, Visual Studio*

- Developed a real-time POS app with inventory sync and automated alerts, simulating real world SDLC tasks.
- Connected frontend to SQL backend; incorporated Power BI dashboards for business reporting.
- Simulated real-world SDLC tasks and enhanced efficiency by 30%.

E-commerce Website (Proof of concept) | *C#, ASP.NET, HTML/CSS, Visual Studio*

- Developed online order platform with real-time product and inventory management.
- Developed product catalog, cart, and basic checkout functionality.
- Integrated with POS system and focused on UI/UX and real-time system integration.

Snake Game (Personal Project) | *Java, AWT, Swing*

June.2024 – July.2024

- Implemented core game mechanics using Java Swing and AWT.
- Focused on event-driven programming, object structure, and debugging logic

Skills

Technical Skills

- **Programming Languages:** Proficient in C# and Java; working knowledge of C++, and Python.
- **Data Analytics and BI:** Power BI (dashboards and reports), SQL (basic queries), Excel.
- **Frameworks & Tools:** ASP.NET, VS Code, Visual Studio, IntelliJ, SQL Server.
- **AI and Machine Learning:** Coursework exposure (ML models, NLP basics).
- **Data & Concepts:** SDLC, OOP, Algorithms and Data Structures, Debugging and Testing.
- **Platforms:** Unix (Basic exposure), Windows.

Soft Skills

- Analytical mindset with strong problem-solving skills.
- Clear communicator with tutoring and presentation experience.
- Team player with adaptability and eagerness to learn.
- Detail-oriented and proactive with documentation and code quality.

Additional Information

- Available for relocation and remote opportunities.
- References available upon Request.
- Passionate about using technology to solve business and tax-related problems.
